

# Freefall

Armin van Buuren

We're dodging daggers that almost reach  
Making mistakes they can never teach  
But these silver clouds won't dissolve to black  
Let's lose our feet to a leap of faith  
And bigger skies that lie in wait  
It's a long way down but i got your back

We're out on the edge of it all  
Are you ready to freefall?  
Ready to freefall?  
We're out on the edge of it all  
Are you ready to freefall?  
Ready to freefall?

So feel the pull of an open thread  
Unravel life till there's nothing left  
It's a long way down but i got you now

We're out on the edge of it all  
Are you ready to freefall?  
Ready to freefall?  
We're out on the edge of it all  
Are you ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?  
Ready to freefall?
