

Imagine

Armin van Buuren

Yeah, keep dreaming
But I have it all
Wouhou, I'm still craving
To have you by my side
Know our love is feeling
But soon we will shine
And I can see today
And I can see tomorrow
You're burning out my head
And then my brain it's going wrong
And I will live today
And I will live tomorrow
No matter what they said I've done
Even if it's going wrong
Even if it's going wrong
Even if it's going wrong You're Burning out my head

Yeah, keep searching
The river in your eye
I'll know I would be able
But soon we will shine
And I can see today
And I can see tomorrow
You're burning out my head
And then my brain
It's going wrong
And I will live today and I will live tomorrow
No matter what they said I've done
Even if it's going wrong
Even if it's going wrong
Even if it's going wrong you're burning out my head
