

# Never Wanted This

Armin van Buuren

Leave me in the outside  
Where I can feel the rain fall off my shoes  
Cover me with kisses  
And I will soon forget what I've been through

Run away forever  
Leave me with no "forward" in the glance  
Find another lover  
Leave me in emotional undress

[Chorus:]

I never wanted this  
I never asked you for anything  
I never wanted this  
[2x]

Bitter sweet reception  
Take my hand and look into my eyes  
Father of Invention  
Only You could make a truth from lies

[Chorus:]

I never wanted this  
I never asked you for anything  
I never wanted this  
[2x]
