

# This Light Between Us

Armin van Buuren

Can you see this light between us  
Keeps me breathing through the storm  
My head above the crowd

Can you see this light between us  
So come a little bit closer now  
Its in our eyes

You and me, we're just believers  
Believing what we hold  
But sometimes we fall to pieces  
In the dusk

So we should dance like this forever  
We're safer on the ground  
When a million lights surround you  
And you're moving to the sound

Don't waste another moment  
It's waiting for you now  
So dive in this new begining  
Let the glowing show you how

I will take, this light between us  
Keeps me breathing through the storm  
My head above the crowd

Can you see this light between us  
So come a little bit closer now  
Its in our eyes

We'll take a ride out side together  
The streets are lined with gold  
Where the good become the wanted  
not the soul

Don't waste another moment  
I'm waiting for you now  
So dive in this new begining  
And let the colour show you how

I will take, this light between us  
Keeps me breathing through the storm  
My head above the crowd

Can you see this light between us  
So come a little bit closer now  
Its in our eyes  
Its in our eyes

So dive in this new begining  
And let the colour show you how

I will take, this light between us  
Keeps me breathing through the storm  
My head above the crowd

Can you see this light between us  
So come a little bit closer now  
Its in our eyes  
Its in our eyes

Its in our eyes
