

Turn This Love Around

Armin van Buuren

What's the point of hiding
We know what's here inside
We know we can't deny
I don't know how to start it
But I won't give up this fight
'cause I 'gotta know we tried

There's no reason we should stop believing
we can turn this love around
we can do this
I know we'll get through it
If we turn this love around
Turn it around [3x]
Baby, turn it around
Turn this love around [5x]

Daylight turns to darkness
Seasons fade away
But I know nothing here has change
'Cause we're getting through the heart aches
And some would fall astray
But I know our love still remains

There's no reason we should stop believing
We can turn this love around
We can do this
I know we'll get through it
If we turn this love around
Turn it around [3x]
Baby, turn it around
Turn this love around [5x]

I know we can
Don't give up on that
Turn this love around
