

Raindrops

Armor for Sleep

You appear like raindrops
And leave like you sink through
The streets that you fall on
The cars that slip on you
All of this for just one night

Suffocate me, all you need,
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air

The clouds will break my house
And throw me from my room
I'll drown in the rainfall
And float till I find you

You appear like raindrops
And leave like you sink through
The streets that you fall on
The cars that slip on you
All of this for just one night

Suffocate me, all you need,
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air

And I won't need air
And I won't need air
And I won't need air
And I won't need air

Suffocate me, all you need,
I won't breathe but its okay
You'll be somewhere around me
And I won't need air

Suffocate me, all you need,
I won't breathe but its okay
You'll be somewhere around me
And I won't need air
