Isolation

Armored Saint

In time we fly In time we die Oh--Oh--Oh Know what it feels to be lonely Don't know how it feels to be free Reacting wild, some moody child Don't know what's in store for me Oh--Out in the cold--Isolation Out on my own--Isolation Out all alone Up go the golden mast Float out to sea at last Roamed a thousand miles Still lonesome child But my ship is comin' in Oh--Out in the cold--Isolation Out on my own--Isolation Out all alone It's my test No fight with myself I ain't wrong It's my quest A life with myself I am gone Oh yea Isolation Oh yea Isolation Out in the cold Isolation Out on my own Isolation Out in the cold Isolation Out on my own Isolation Out in the cold Isolation Out on my own Isolation Out in the cold Isolation Out on my own Isolation Out in the cold Isolation Out on my own
