

## Mad House

Armored Saint

(John Bush/Dave Prichard/Phil E. Sandoval/Joey Vera/Gonzo)

I got an urge to tell a story  
Mad house set to unload  
I try my best to keep a distance  
From going down loony road  
But I crushed with that temptation  
For the place that makes you move - to the groove  
Right down loony road  
This certain pad will make your heart beat  
Rum, sex, drop hit the floor  
Next day you feel your head spin  
Back up again, do it some more  
Then I get crushed with that temptation  
For the place that makes you move  
And then it feels good there  
You better raise your beer to the mess

Chorus:

The only place for you to be - Mad house  
Back in touch with insanity - Mad house  
It don't matter what you do - Mad house  
Just as long that it's good for you - Mad house  
Right down loony road  
I got an urge to tell a story  
Mad house set to unload  
I try my best to keep a distance  
From going down loony road  
I just get crushed with that temptation  
For the place that makes you move  
And then it feels good there  
Raise your beer to the mess

Chorus:

Mad house, mad house  
Mad house, mad house
