

Your Turn To Smile

Arms Like Yours

Oh my God, he's done it again
When will you get it in your head?
He's never gonna quit
It's never gonna end
You tried so hard to make it work
You never knew that this would hurt
Over over again
And here he goes again

When will you learn?
When every time you try he crumbles
Everything that you stand for
[...]
It's time for you to stand

Please don't give up
We're gonna make it out alive
Just close all the doors
And turn out the lights
We're gonna make it out tonight

Oh my God, he's done it again
And you can smell it on his breath
It's never gonna end
He's never gonna quit
You [...] he trips you up
Now you know you've had enough
Look deep into his eyes
Tonight he's gonna die

When will you learn?
When every time you try he crumbles
Everything that you stand for
[...]
It's time for you to stand

Please don't give up
We're gonna make it out alive
Just close all the doors
And turn out the lights
We're gonna make it out tonight

The beatings will come to you
[...]
The beatings will come to you
[...]

Get away from me!
Run away from me!
Get away from me!
Run away from me!
Every time you try he crumbles!
Everything that you stand for!
[...]
It's time for you to stand!
