

## Dark As Days

Army Navy

Can we go  
Cause I'm always searching for more  
And it never makes it clear than it was before  
I can see that the disco lights of the dreams  
But we'll never dream of to make us tough

But I won't ever believe it till I melt inside  
I won't ever be free until I let you die  
Yeah I never believed in the power  
It slips away  
I always needed a plan to dislocate

I can see that you're probably springing from me  
If your making a clear get away  
My get away

But I won't ever believe it till I melt inside  
I won't ever be free until I let you die  
Yeah I never believed in the power  
It slips away  
I always needed a plan to dislocate

Yeah I never believed in the power  
It slips away  
I always believed when the nights are as dark as days

Yeah I never believed in the power  
It slips away  
I always needed a plan

Yeah I never believed in the power  
It slips away  
I always needed a plan to dislocate  
Yeah I never believed in the power it slips away  
I always believed when the nights are as dark as days
