

Saints

Army Navy

Why can't you be my way
I keep on dressin' while I'm pushing you away
Don't stop just bring the strays
This is what I've done
To keep from here on strong

Cause if a girls night highlights
I finally got it, I wont give it up
Remember when you said you liked that
It's played out so clear off
Willingness in you can't be replaced
Remember when you said you'd try that

Like that but it's to late
I want to take it now before this drifts away
Wait 'til the school bell has chimed
They will sing a song, pay me all this love

Cause if a dump truck such luck
You keep pretending I keep you around
Remember when you said you'd try that

Remember when I call and I say
The best girls that I love wont be ashamed
Believe me when I call and I say
The next girl that I love wont be a saint
Now go away

Remember when I call and I say
The best girls that I love wont be ashamed
Believe me when I call and I say
The next girl that I call wont be a saint

Believe me when I call and I say
The best girls that I love wont be ashamed
Remember when I call and I say
The next girl that I love wont be a saint
Now go away
