

Get Um Up

Army of Freshmen

All hands on deck, throw your guns in the air
Let's turn this ship around and leave this battleground
We've been lost at sea for a long time now
Today I'm calling mutiny on every single memory

Get um up, get um up, let's go!
We're finally going home
I'm here to tell you that the war is over
Get um up, get um up, let's go!
We're finally going home
I'm here to tell you that the war is over

Raise the canons high, a good day to die
You know we'll tell our enemies no surrender
I'm a patriot, for taking all your shit
But see I've got my freedom now and we are over

Vision like metal gear everything is clear

Get um up, get um up, lets go!
We're finally going home
I'm here to tell you that the war is over
Get um up, get um up, lets go!
We're finally going home
I'm here to tell you that the war is over

Get um up, get um up, let's go
It's been a hell of a fight but it ends tonight
When I sink our ship in the deep, deep blue
Forever never ever be at war with you
Swim to shore and think no more
The unknown soldier finally scores

Get um up, get um up, lets go!
We're finally going home
I'm here to tell you that the war is over
Get um up, get um up, lets go!
We're finally going home
I'm here to tell you that the war is over

Get um up, get um up, let's go!
We're finally going home
I'm here to tell you that the war is over
Get um up, get um up, let's go!
We're finally going home
I'm here to tell you that the war is over
