

# Supernatural

## Army of Lovers

Light in the tunnel I find my way home  
Spirits have flown  
Waving goodbye to material things  
From angel wings

Back to nature my return  
Change of heart the skin is burned  
Found a cure I'm all hooked up  
Meditate on a mountain top

Born again to contemplate  
Power field I can create  
Flying high on a wave of love  
Supernatural

What can I say what could I do  
I'm still with you, supernatural  
Tell me you see, tell when you dare  
Go everywhere, supernatural

Deep in the forest I fight to protect  
Nature's respect  
Over the ocean and under the sky  
Learning to fly

Secrets hidden pollute your mind  
Open spaces are there to find  
Voices tell I stood the test  
Walk transparent I'm obsessed

Make a move let your mind feel free  
Stepping outside reality  
Flying high on a wave of love  
Supernatural

What can I say what could I do  
I'm still with you, supernatural  
Tell me you see, tell when you dare  
Go everywhere, supernatural

What can I say what could I do  
I'm still with you, supernatural  
Tell me you see, tell when you dare  
Go everywhere, supernatural

What can I say what could I do  
I'm still with you, supernatural  
Tell me you see, tell when you dare  
Go everywhere, supernatural

What can I say what could I do  
I'm still with you, supernatural  
Tell me you see, tell when you dare  
Go everywhere, supernatural
