

Venus & Mars

Army of Lovers

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars

The clock of
time the night
of doom
An angel
passing through
my room
Dark shadows
fade the lights
away
Like birds of prey

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars

The sun the
moon the
flaming sky
A wandering
star in heavens
high
Tonight we
dream on broken
glass
Oh razzmatazz

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars

I saw a star
Venus and Mars
The sky
Across the rainbow
I find my halo
Venus and Mars
