

## Venus & Mars

Army of Lovers

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars

The clock of  
time the night  
of doom  
An angel  
passing through  
my room  
Dark shadows  
fade the lights  
away  
Like birds of prey

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars

The sun the  
moon the  
flaming sky  
A wandering  
star in heavens  
high  
Tonight we  
dream on broken  
glass  
Oh razzmatazz

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars

I saw a star  
Venus and Mars  
The sky  
Across the rainbow  
I find my halo  
Venus and Mars
