

Hollow Eyes of Nefertiti

Arrayan Path

From Ahmose-Nefertari
Love of King Akhenaten
Royal mistress of on chariots
And a beauty like Isis

True believer in Aten
No more different
Than traditional gods

They embraced all his wisdom
The queen and the love of her life

Now, fallen from grace
She was erased
From the scriptures of history
What a way to die, so young in mind
It remains a mystery

From the lands of Anubis
And the soil of Osiris
And the falcon-god Horus
Oh wrath of Isis

Riddles, always unsolved,
A world of its own
So many questions
Why, we see on the walls
Spirits and wars
And who made the pyramids

He is the spirit god
She is the flame of all
She is the one
The devourer of his words
A falcon who eats the snake
To show its desert reign
Stole the soul of Amhenotep the 4th

From the king of the desert, Seth
To the chariot of the god Ra
And the glory of Hathor
And Amun the creator

Hollow eyes of Nefertiti
Queen of all disguises and hope

Without mercy,
she will reign millenniums
Goddess of humanity,
Millenniums,
she's the ruler of the stars
