

Blues Happy

Arrested Development

Hey, yes indeed, this is Speech from Arrested Development
I'm the leader, ha ha
My nose is stuffed up, though
Check it out, I'm the leader
Homeboy, right over there, Headliner, is the turntable instrumentalist
We got Arnaé 3 over there with her crazy set, over there, chill in'
Razadan is chillin', he's in the house
That's the man, he designs all our logos
And then we got Bubba OJ in the house
He's just, he's like the pappa, the father figure
As what, what's her name, ini?
Of course, I can't forget Kwesi
Lady smiley, over here, always smilin'
And, of course, Larry's on the guitar
This song is for you, brother
