

Children Play with Earth

Arrested Development

Okay

The way kids are living is 100% European

African boys and girls

Set down your Nintendo joysticks right now

Unplug the television

And make way for an old vision

Which will now be a new vision, yes

Headliner, lay the foundation

Dig your hands in the dirt

That's right

Children play with earth

That's right

Dig your hands in the dirt

Children play with earth

Gain knowledge of the big

But small earth around you

Dig your hands into the dirt

The dirt that made you

Get acquainted with the earth

The earth that eventually will take you

And the world that hopefully

Will appear to wake you

Children, play in the fields

Play in the grass, climb Mr. tree

Get to know each branch

Give it a name

For the branches resemble the many decisions

You will have to make in life

Eat of the earth children, grow an apple tree

Taste the apple, communicate
Watch and listen to the neglected mother of all
Short, tall children play with earth
Eat rhubarb wet from the rain
Beautiful fruits all the same
Pears, oranges and grapes from the vine
Children it is the earth's time
