

Greener

Arrested Development

(And the people go-Hey ahh) Mix the sunshine add some rain A pinch of loving sow a seed and... The grass can be greener on the other side (And the people go-Hey ahh)

(Speech) Friends of mine worry about they welfare They not really doing well they just doing fare Without medical healthcare pockets bare Hiding dey car far from repo man Checkin caller id before they answer they phone Bill collectors call round the clock at they home But they still wanna gone & replace they light bulbs Blacks want to be green we wanna recycle Many of us poor so we take the mass transport Walk streets bump beats that's what the headphones are for No SUV's steady spilling mad smoke All the baller images is just us in the video Most people that I know is on foot Living green naturally it's all good I -Recycle cans and paper goods in my hood son No trash mouth cuz trash is better in a dump The grass can be greener on the other side (and the people go-Hey ahh)

(1 Love) I stopped to get gas at the citgo I saw a brother passing by throwing trash out his window I walked over and I picked it up It was a styrophome cup filled with cigarette butts ! what the...? He was thug and a litter bug I'm just trying to be a man that recycling See we support waste management And their efforts to prevent waste from piling up on each continent We separate the paper and elastic Then do the same with cardboard and plastic We take glass and bulbs filled with halogen And put a lumium and tin in a separate bin My next of kin yeah we heard about it But we've been letting al goers friends worry about it See where were from smog is hovering So I'm dedicating this verse to helping mother earth to recover

(Eshe) Organically we grow our trees Flowers blooming attracting buzzing boes Teach our kids how to plant seeds And nurture the harvest until the season comes From soil we feed from soil we feed Mix the sunshine add some rain A pinch of loving sow a seed and... The grass can be greener on the other side (and the people go-Hey ahh) (Speech) Life is filled with Challenges My boys Kidneys failed man he's on Dialysis 3 hours to filter his blood everyday We trying to learn more about the herbal remedies Get back to the way God meant for it to be Hanging with my peeps on the stoop being free Shoulda listened to the Indians and not the pilgrims The world warming up there's much less chillin' And yet where I'm from there 's still some convincing Older folks don't trust the whites intentions Some think natural living is hocus pocus But with record high heat waves they taking no tice

Mix the sunshine add some rain A pinch of loving sow a seed and

.. The grass can be greener on the other side (and the people
go-Hey ahh)
