

# My Heart

Arsenium

When you call my name,  
i will be there,by your side,  
even if you're far away ,  
oh,i still be there

Looking at the stars,  
are make a wish,every night,  
hoping they will let you stay ,  
just one more day

R : When i hear your breathing,  
i can read your feeling,  
cause if you stay,  
we can fly away

No day love will make the weather  
if we stay together,you and me  
all the way to be

If you leave me ,  
there will be no sun in the sky,  
and my live will turn to break,  
all in the rain

Tell me if you stay or go,  
i'll try to be strong,  
even if you'll go,  
Or say i always be there

R : When i hear your breathing,  
i can read your feeling,  
cause if you stay,  
we can fly away

No day love will make the weather  
if we stay together,you and me  
all the way to be

R : When i hear your breathing,  
i can read your feeling,  
cause if you stay,  
we can fly away

No day love will make the weather  
if we stay together,you and me  
all the way to be

R : When i hear your breathing,  
i can read your feeling,  
cause if you stay,  
we can fly away

No day love will make the weather  
if we stay together,you and me  
all the way to be
