

Apple, apple. I've gone away to another weird time.
Apple, apple. I drop my anchor yeah I leave it behind.
Busy-body busy fire. Hop! Take a little. Hop! Take a little.
Busy-body busy fire. Hop! Take a little. Hop! Take a little.

Wake up the sound that created the light
Wake up the sound and define the feeling.
We've got the time and we're doing alright.
I got a feeling and it won't let go.
We've got control of the rivers and the ocean.
And the tides, see them fly!
Music and time is the flowing of emotion.
I got a feeling and it won't let go

A.I.M. A.I.M. A.I.M. Fire!

Don't you know that I like it journey way into the night.
Away we go. Ah away we go.
But don't you stay in the darkness gonna get you with the vibes
.
Falling out of the main body fire.

Busy-body busy fire. Hop! Take a little. Hop! Take a little.
Busy-body busy fire. Hop! Take a little. Hop! Take a little.

Wake up the sound that created the light
Wake up the sound and define the feeling.
We've got the time and we're doing alright.

Beebop and Rocksteady never won a war.
