## **The Calm Before The Storm**

Artension

Now I know where the spirit goes Flying on the wind, until it's born again

Dark world, I have seen the other side A cold light, an endless night Until it's born again

Fly on, spirit Fly on, spirit

Before the storm, the calm is deafening Before the storm, the calm is deafening

So sad that everyone we love must die Hearts sigh, and souls they cry Until they've born again

Fly on, spirit Fly on, spirit

Before the storm, the calm is deafening Before the storm, the calm is deafening

Fly on!

Fly on, spirit Fly on, spirit

Before the storm, the calm is deafening Before the storm, the calm is deafening

Until they're born again Spirit, fly on On through the storm
