

# The Killing

Artension

Dark cloud is covering the sky  
And I feel, now there is no end in sight

Don't turn and run away  
You'll never know  
Won't let you leave this place  
No, not alive!

Come and join the killing  
Not without a fight  
Welcome to the killing  
You won't leave with your life

Broadheads are sharper than a knife  
At full draw, and I've got you in my sights

Don't turn and run away  
You'll never know  
Won't let you leave this place  
No, not alive!

Come and join the killing  
Due respect for life  
Welcome to the killing  
You won't leave with your life
