

# Fright Train

Arthemis

Welcome to the darkest train in the world  
We know for sure you won't get bored  
Buy your ticket for a no return  
Just relax, face on the floor!

No, don't give me the blame  
Fright out you'll never win the game

Fright train, comin' on a fright train  
You'll never gonna be back home  
Wild games livin' on the night train  
Lie down on out bed of nails  
Fright train, comin' on a fright train  
Scream but it's too late  
We'll ever stop again  
It's just your fanatic psycho-pain

You can call the cops  
You can fall in tears  
But all this shit looks so real  
Carry on bad wishes straight to hell  
And smoke your latest cigarette

No, don't give me the blame  
Fright out you'll never win the game

Fright train, comin' on a fright train  
You'll never gonna be back home  
Wild games livin' on the night train  
Lie down on out bed of nails  
Fright train, comin' on a fright train  
Scream but it's too late  
We'll ever stop again  
We're getting to the station through your blood
