Arthemis

Been left alone in blood and shame  
I see the aliens come my way  
Rejected by my friends  
So far away

Out of sight and out of touch  
I wonder if it's just too much  
My memories will fade to black  
And I'm afraid to come back

I'm bleeding, I'm bleeding  
Much stronger, believing I can  
See my world again

We are coming all the way from the Sun  
We are searching for our way to home

A ray of light gives me hope  
I'm sick and tired please take me home  
I see my Earth from miles and miles away

I take a breath and suffocate  
They tear me down to kill the day  
I watch my fear become my god  
But I don't wanna sleep no more

I'm bleeding, I'm bleeding  
Much stronger, believing I can  
See my world again

We are coming all the way from the Sun  
We are searching for our way to home

I'm bleeding, I'm bleeding  
Much stronger, believing I can  
See my world again

We are coming all the way to the Sun  
We are searching for our way  
Always keep on dreaming  
We will stand as one  
We are searching for our way to home
