

# Let It Roll

Arthemis

The crowd gather all around us  
And it seems out of control  
You'll find a concrete jungle  
Ready for rock'n'roll!  
Oh yeah! The eyes are burning  
Oh yeah! And the war machine is turnin'

The people are around you  
Are screamin' out your name  
No compromise  
'case we always play on ten  
Oh yeah! Our guns are loaded  
Oh yeah! And the fireworks explode

And I want to rise again  
Never lose the faith  
I want to rise again  
Get up! Get ready to roll

Let it roll!  
Let it roll!  
The fire still burns in your soul  
Let! Let! Let!  
Let it roll!  
Together we'll rock them to the bones

The loud guitar is screaming into your soul

And I want to rise again  
Never lose the faith  
I want to rise again  
Get up! Get ready to roll  
Always ready to roll
