

Place I Know / Kid Like You

Arthur Russell

Did they trap the wolves?
So they rained it out
Do I sing out loud?
Tears drop..
The high hope city
Or rags who is now
Behaving one
Is that it now?
Caught in itself, in its own
Ain't its swell?
Being so tired is trying to be inside itself

You've been dead something they blew me over
Been sure good, it sure was
But this kinda did
Where I was so candid
Where we ever there?
Where we ever there?
Coz you're friend did,
Does that mean that anyone who, me or mine?
Did I knew got nervous trying..
Man like me ..
Never understood one ..
A kid like you
Could never understand ..
Did I knew
