

# Time Has Come

## Artillery

Bells you hear from everywhere  
Fire is lightening through the air  
Fear is driving you insane  
Death - your life is in vain  
He will tear your mind apart  
Rip out your soul and heart  
He will flame your eyes  
He'll leave you no disguise

Bells exploding in your ears  
Fire is burning up your tears  
Fear - now for your life you cry  
Death - you know you're gonna die

Time has come - incompetent you ruled  
Time has come - with life and death you fooled  
Time has come - a curse fell on your name  
Time has come - you've got yourself to blame
