

# Christmas With You

Artist vs. Poet

Another year has passed us by  
It was gone in a blink of an eye  
We've got 15 bucks  
Seems we're down on our luck  
But who cares  
You're with me tonight

This is our time now

When the fire burns out  
And it's only me and you  
Shimmery lights outside  
They reflect your eyes  
As you say "I love you too"  
When the sun comes up  
And the snow falls from the roof  
I can smile because I spent my Christmas with you

All the shops are closed  
Busy streets never felt more alone  
Everyone around in this crazy-ass town  
So ready to finally be home  
So I'll sit by the fire  
Watching re-runs and making you smile  
Sharing cookies you burnt  
You spilt milk on my shirt  
That's okay  
You're with me tonight

This is our time now  
There's no need to worry 'cause

When the fire burns out  
And it's only me and you  
Shimmery lights outside  
They reflect your eyes  
As you say "I love you too"  
When the sun comes up  
And the snow falls from the roof  
I can smile because I spent my Christmas with you

With you  
Wanna be with you  
With you  
I wanna be with you  
I wanna be with you

When the fire burns out  
And it's only me an you  
Shimmery lights outside  
They reflect your eyes  
As you say "I love you too"  
When the sun comes up  
And the snow falls from the roof  
I can smile because I spent my  
I can smile because I spent my  
I can smile because I spent my Christmas with you
