

Hang Around

Artist vs. Poet

I don't remember how we met
I still haven't recovered yet
But you can bet that I won't forget
This is what I get, what I get when I hang around
Making love on a jet plane
Throwing money 'cause we're getting paid
Doing fine and I can't complain
This is what I get, what I get when I hang around

A shit date on the promenade
Kicked out on the boulevard
We're fucked up from all of the bars
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around

You and I taking long drives
And making out by the riverside
You're hitting on all the other guys
This is what I get, what I get when I hang around
Promising we were meant to be
You and I for eternity
Look at that, you're leaving me
That's what I get, what I get when I hang around

A shit date on the promenade
Kicked out on the boulevard
We're fucked up from all of the bars
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around you
This is what I get, what I get when I hang around you
That's what I get, what I get when I hang around you
That's what I get, what I get when I hang around

Can't you see what you're doing to me girl?
You know I'll always hang around
You know I can't walk away
I just can't get out
Can't you see what you're doing to me girl?
You know I'll always hang around, hang around, hang around, hang around

Can't you see what you're doing to me girl?
(That's what I get, what I get when I hang around)
You know I'll always hang around
You know I can't walk away
(That's what I get, what I get when I hang around)
I just can't get out
Can't you see what you're doing to me girl?
(That's what I get, what I get when I hang around)
You know I'll always hang around, hang around, hang around, hang around
(That's what I get, what I get when I hang around)
