

My Darkest Dream

Arven

I, I close my eyes
I see you there and think of former times
You've gone too far, you broke my heart
What have you done?

I wanna hear you scream, I wanna know for sure
Inside my darkest dream, I wanna hear you scream
I wanna hear you scream, I wanna know for sure
I want to be alone with you, alone with you

How could you do this to me?
Break the promise you made
I believed every lie you told me
You left and there's so much pain

This, this is the time
This is the day for seeing you again
Pain everywhere, flowing through my veins
Burning my soul

I wanna hear you scream, I wanna know for sure
Inside my darkest dream, I wanna hear you scream
I wanna hear you scream, I wanna know for sure
I want to be alone, alone with you

How could you do this to me?
Break the promise you made
I believed every lie you told me
You left and there's so much pain
