

## Raze

### As Hell Retreats

We can overcome anything  
That stands in our way  
And together we will raze Hell.  
Raze Hell.

This world has had enough of this torture  
It's not taking care of the orphans and widows  
I am so sick of this filth

We can overpower the demons  
And together we will raze Hell.

This darkness will make us heartless  
If we keep idle

I can't stand to see you like this  
And neither can His son  
So raze Hell from your future.
