## **Resting With Closed Eyes**

## **As Hell Retreats**

We rest with closed eyes Never knowing when someone will leave us behind Instead we shut it down, we shut it off. We all become lost of what should always be found

Ignorance blinds us.

Ignorance blinds us all from beauty

Beauty of having a thought for ourselves.

Instead we discriminate the ones we love And push them aside The next thing, they leave the world Our world, our arms, our grasp And we can't apologize anymore

Jesus, you only ask us to do one thing That is to love all and serve all. But we become weak instead with demons We become impure

We can fight this off, we can overcome. With you Lord, our Almighty. Amen.
