

Every day is not a holiday  
My life's like a subway o  
I know this love don't last

Look at me tell me what you see  
Do you believe this love is real o  
I know this love don't last

I have come from far away  
To see this go down the drain

I have waited patiently  
And this is what I get  
Emotionally failing me

My whole wild world is caving in  
I try so hard to express myself/but  
The woman in me/o o o don't fade away

My mama say baby be careful  
If anybody comes to say I love you  
My papa say baby I warn you  
If anybody comes to say I love you

Now you asking me to trust you  
Tell me how am I supposed to  
When I know this love don't last

Could this be the kind of love?  
That my mum use to warn me about  
How will I know that this love will last

I have come from far away  
To see this go down the drain  
I have got so much to give

But I don't know what I'll get  
Emotionally failing me  
My whole wild world is caving in

I try so hard to express my self but  
The woman in me don't fade away.

My momma said baby be careful  
if anybody comes to say I love you.  
My papa said baby I warn you  
if anybody comes to say I love you.
