

## Day's Work

ASG

Caress me gently I'm on fire  
No wailing wall to hold my last two tears  
Upside down we did grow  
And if you memorize you're steps they just might get you out from here

Ain't too much around here to hold someone's attention  
When you're eyes are bound

I'll get the best of you and triumph  
A tidal wave of emptiness is near  
Have you heard pain before? I bet you listen well  
After forever you're last words appear
