

Candy, such a joy to me  
Inner city nights, I cannot sleep  
Oh candy, sweetest remedy  
Only you can ease my troubled dreams

Angel, all people are the same  
Caught up in bitterness and blame  
Oh candy, on dark and lonely days  
I hear your voice whispering my name

Don't you know it's alright to be alone  
You can make it on your own  
Don't you know it's alright to be alone  
You can make it on your own

Angel of the summer stars  
I will always see you safe from harm  
Candy, we'll never be apart  
Night and day you're constant in my heart

Don't you know it's alright to be alone  
You can make it on your own, yeah  
Don't you know it's alright to be alone  
You can make it on your own

Oh candy, my dreams  
Oh candy, my dreams  
Oh candy, my dreams  
Oh candy

Candy, pure as driven snow  
Come to me, you are not alone  
Oh candy, you're everything to me  
You and I will always be free

Don't you know it's alright to be alone  
You can make it on your own yeah  
Don't you know it's alright to be alone  
You can make it on your own  
It's alright to be alone  
Don't you know it's alright to be alone  
You can make it on your own yeah  
Don't you know it's alright to be alone  
You can make it on your own yeah  
Don't you know it's alright to be alone  
You can make it on your own yeah  
It's alright to be alone  
You can make it on your own yeah  
It's alright to be alone  
You can make it on your own yeah  
It's alright to be alone  
You can make it on your own yeah  
It's alright to be alone  
You can make it on your own yeah
