

I Need Somebody

Ash

I can't be myself, when I'm alone
I think stupid things, when left on my own
I need somebody to be around
Someone to play up to, to fool around
I need somebody, to pick me up

I need somebody
Oh anybody
I need somebody
You know that it's you

I think out aloud, when there's no one around
I can't understand, why I ever feel down
I need somebody to take me home
To the world I once knew was formed on its own
I need somebody to see a smile
Knowing things will be better after a while

I need somebody
Oh anybody
I need somebody
You know that it's you

Oh yeah it's you
