

# Instinct

Ash

I-N-S-T-I-N-C-T

Shock Reaction, a lightning bolt  
Shaken senses, a violent jolt  
It's called instinct  
Yeah, it's called instinct

This desire I'm thinking of  
I need to feel the heat of love  
It's called instinct  
Yeah, it's called instinct

The second my eyes set on you  
I fell without a fight  
You left an imprint on my heart  
Overthrew my mind  
Before the wolves descend on us  
We'll vanish in the night

I'm animal, I'm not machine  
I live my life just how I feel  
It's called instinct  
Yeah, it's called instinct

A sudden impulse I can't ignore  
You're the one I've been waiting for  
It's called instinct  
Yeah, it's called instinct

The second my eyes set on you  
I fell without a fight  
You left an imprint on my heart  
Overthrew my mind  
Before the wolves descend on us  
We'll vanish in the night

The second my eyes set on you  
I fell without a fight  
You left an imprint on my heart  
Overthrew my mind  
Before the wolves descend on us  
We'll vanish in the night

It's called instinct  
Yeah, it's called instinct  
It's called instinct  
Yeah, it's called instinct
