

# Let It Flow

Ash

Here she comes walking across the sand  
She'll never know how she blows my mind  
She's there with the chemicals in my brain  
Spinning softly round my head  
I'm gonna give in, I'll never change my mind  
I feel it now, tonight is the night  
And why should I try to resist  
When it's calling out to me  
Calling out to me

She's blowing my mind  
She's always blowing my mind  
She's blowing my mind  
She's always on my mind

The autumn and the winter have been and gone  
Half the time I never knew what was wrong  
I never noticed I was feeling down  
It just went day by day  
She'll never know how she turned it round  
She'll never know how she blows my mind  
It was a long time coming to me  
I'm gonna outshine every star  
She's gonna make it through

She's blowing my mind  
She's always blowing my mind  
Look in my eyes  
She's always on my mind

I won't be able to help myself  
Falling in love with her  
I have all the time in the world  
The answer was always there  
Why should I try - try to resist  
When it's calling out to me  
She can take my heart or pay the price  
She's the sweetest thing I've ever known

Here she comes walking across the sand  
She'll never know how she blows my mind  
She's there with the chemicals in my brain  
Spining softly round my head  
I'm gonna give in, I'll never change my mind  
I feel it now, tonight is the night  
And why should I try to resist  
When it's calling out to me  
Calling out to me

She's blowing my mind  
She's always blowing my mind
