

# Meltdown

Ash

Revolution, we're the solution  
We're gonna take it to the overload  
Rebel radical retribution  
We're here to get what we are owed

I think my head, my head is gonna explode  
I think my head is gonna explode  
I think my brain is gonna overload  
I think my head is gonna explode

We're unified in a sonic nation  
Leave all the fakers and the lies behind  
You want to meet us in a confrontation  
Our psychic weapons will destroy your mind

I think my head, my head is gonna explode  
I think my head is gonna explode  
I think my brain is gonna overload  
I think my head is gonna explode

Now is the time yeah  
To do it right  
Take no more lies  
Make up your mind yeah

The witch doctors and the politicians  
They rule by fear and try to keep us down  
But they can't see that these conditions  
Will spark the fury of the underground  
I see it on the global transmission  
It's almost ready to overload  
I see a dark apocalyptic vision  
One minute now the world is gonna explode

I think my head, my head is gonna explode  
I think my head is gonna explode  
I think my brain is gonna overload  
I think my head is gonna explode  
I think my head, my head is gonna explode  
I think my head is gonna explode  
I think my brain is gonna overload  
I think my head is gonna explode
