Polaris

Save me I can't run this time Am I under a spell? Fighting for my life So far gone I can't turn it round I feel buried alive I am screaming out

Terror in your eyes, your heart is racing For the innocence we lost will not return We know we can't go on But we're still holding on Don't let me be the one to drag you down

In the silence In the lonely night When you're frozen with fear When you're paralysed Too delicate Your fragile mind It's so hard to stay In love with life

Terror in your eyes, your heart is racing For the innocence we lost will not return We know we can't go on But we're still holding on Don't let me be the one to drag you down

I was fighting at your side Knowing partner in this crime A beating heart A distant star We lost all we were fighting for All the hurt I kept within I blame myself for everything For all the regret that remains For all the pain

Terror in your eyes, your heart is breaking For the innocence we lost will not return We know we can't go on But we're still holding on Don't let me be the one to drag you down To drag you down...
