

Head is pounding in a daze
Bruised wrists and your body aches
If you be mine I'll be your mirror
Glide inside, pull your trigger

Violent mind, violent mind, violent mind
Violent mind, violent mind, violent mind

I know what you wanna do, we're on the line
I know what you wanna do
Got a violent mind
I know where you're going to
Eyes black and wide
I know what you wanna do
Got a violent mind

Hedonistic, narcissistic
Erotic, nihilistic
Pupils wide, gonna slide inside
Gonna blow your mind

Violent mind, violent mind, violent mind
Violent mind, violent mind, violent mind

I know what you wanna do,
We're on the line
I know what you wanna do,
Got a violent mind
I know where you're going to,
Eyes black and wide
I know what you wanna do,
Got a violent mind

Violent mind, violent mind, violent mind
Violent mind, violent mind, violent mind

I know what you wanna do,
We're on the line
I know what you wanna do,
Got a violent mind
I know where you're going to,
Eyes black and wide
I know what you wanna do,
Got a violent mind
I know where you're going to,
Eyes black and wide
I know what you wanna do,
Got a violent mind
