

Good Good

Ashanti

When my man leave the house, I know he comin' right back
I got that good good, I got that good good
No matter how much he might try to act, he know just where it's at
I got that good good, I got that good good

I put it on him right, I do it every night
I leave him sittin' mouth open like wheww
So I don't worry bout nobody takin' mine
Cause I know just the right thing to do (I got that good good)
