

## Over

Ashanti

Can't believe that it's over baby  
But every bruise on my heart you gave me  
See we tried but we fight then we cried now it's over babe it's over babe.  
(2x)

When I met you I knew you would be the one,  
for me cause looking at you made me feel kind of  
crazy, now what you asked I almost did it automatically  
but it was nothing compared to the joy you gave me.  
Although I know that what we had it wasn't perfect babe,  
you fooled around, but see back then it didn't phase me  
I thought by staying, trying to change you would be worth it babe,  
but now I see that trying to change you only changed me.  
All these tears, and all of your lies  
all these years and now we're saying goodbye, it's over babe.

Can't believe that it's over baby  
But every bruise on my heart you gave me  
See we tried but we fight then we cried now it's over babe it's over babe.  
(2x)

Now I'm thinking that I never should have dealt with you,  
all this screaming and this yelling  
that we go through raining late at night I'm sitting waiting up for you  
just to tell you how I hate who you turned into,  
see ain't no way I'm gonna sit and take this shit from you,  
I'll never play another day of being your fool,  
I wasted all my time on something that just wasn't true,  
I should have known I could never ever change you.  
All these tears, and all of your lies,  
all these years and now we're saying goodbye it's over babe.

Can't believe that it's over baby  
But every bruise on my heart you gave me  
See we tried but we fight then we cried now it's over babe it's over babe.  
(2x)

I'll never forget what you did to me so I'm gone I'm leaving leaving baby,  
I'll never forget  
what you did to me so I'm gone I'm leaving leaving baby.  
Whenever you see me don't even speak,  
I'll never forget what you did to me.  
Whenever you see me don't even speak, I'll never forget what you did to me.

Can't believe that it's over baby  
But every bruise on my heart you gave me  
See we tried but we fight then we cried now it's over babe it's over babe.  
(4x)

I'll never forget what you did to me so I'm gone I'm leaving, leaving baby.  
I'll never forget  
what you did to me so I'm gone I'm leaving, leaving baby.
