

# Unbearable Beauty

Ashbury Heights

Narcotic smiles  
Eyes like mirror glass  
Miles and miles  
Of closest skeletons

You instill  
Heartfelt melodies  
Up this hill  
There's no mercy

Your unbearable beauty  
Your unbearable charm  
Your unbearable smile  
That lingers for a while

How you feel  
Is a mystery  
Spin the wheel  
It's all good

An endless dance  
Round and round again  
And every chance  
A drop of rain

Your unbearable beauty  
Your unbearable charm  
Your unbearable smile  
That lingers for a while
