

## Our Eden

## Ashen Mortality

Walk again with me  
Through the garden  
Take my hand  
Come away with me  
And remember when we walked this way before  
One summer

Do you still believe  
Do you still remember

Walk again with me  
See the beauty  
Take my hand  
Without the pain  
And remember when we walked this way before  
In innocence

Do you still believe  
Can we ever really return to our eden
