

# Nobody Else

Asher Monroe

Girl, I know your future for tonight  
I really know what you want,  
I can't rest on your mind  
And I got the window opened if you're feeling hot  
Please, baby baby get on top of me  
What you think about that?  
Let's take it from the top  
Girl, I know your future for tonight  
I really know what you want,  
I can't rest on your mind  
And I got the window opened if you're feeling hot  
Please, baby baby get on top of me  
What you think about that?  
Oh oh oh ooh

I'm looking in my rear view, tryina find her  
In my mind one one one, but I can't see her  
Gotta find her, baby where you heading?  
Then she said, come find me, hold me  
Love me like you never loved nobody else  
She told me, in my dreams you come and find me  
And love me like you never loved nobody else

I trust I know exactly what you want, girl  
I've been dreaming 'bout you, uuh uh every single night  
Girl, you need this loving in your life  
And I'm a give it all to you, you, you uh uh  
Take you out shopping, put something on your feet  
I got everything you want, you got everything I need  
Girl, there will be no stopping, just let me live the dream  
Keep playing girl, keep playing girl, keep playing hide & seek

I'm looking in my rear view, tryina find her  
In my mind one one one, but I can't see her  
Gotta find her, baby where you heading?  
Then she said, come find me, hold me  
Love me like you never loved nobody else  
She told me, in my dreams you come and find me  
And love me like you never loved nobody else

Ooh oh oh  
You know I can't help myself  
Girl you got me like  
Ooh oh oh  
And we lay down in my bed  
And that's when she said come find me, hold me  
Love me like you never loved nobody else  
She told me, in my dreams you come and find me  
And love me like you never loved nobody else  
She said come find me, hold me  
Love me like you never loved nobody else  
She told me, in my dreams you come and find me  
And love me like you never loved nobody else
