

So High

Asher Monroe

She walked in, shot me one look
Straight to my heart, straight to my heart
Under my skin, she's got me hooked
I'm coming apart, I'm coming apart

I can't keep looking away
She's got a hold over me
And I like it, whoah
You know I like it, whoah

Tonight I'm feeling so high
Tonight I'm feeling so high
And I don't wanna come down down down
I love this feeling right now now now
Tonight I'm feeling so high
Feeling so high

Pulling me close, tasting her kiss
I'm out of my head, going out of my head
I can't let her go, can't hold on to this
I'm falling again, she's got me falling again

I can't keep looking away
She's got a hold over me
And I like it, whoah
You know I like it, whoah

Tonight I'm feeling so high
Tonight I'm feeling so high
And I don't wanna come down down down
I love this feeling right now now now
Tonight I'm feeling so high
I'm feeling so high
Let's keep it going going
All night long
Gonna be the night of your life
Come on, come on
Tonight I'm feeling so...

Don't tell me your name
It's better left unsaid
It's only for one night
And the night's not over yet
The night's not over yet

She walked in, shot me one look
Straight to my heart, straight to my heart

Tonight I'm feeling so high
Tonight I'm feeling so high
And I don't wanna come down down down
I love this feeling right now now now
Tonight I'm feeling so high
I'm feeling so high
Let's keep it going going
All night long
Gonna be the night of your life

Come on, come on
Tonight I'm feeling so high
Feeling so high
Tonight I'm feeling so high
Feeling so high
