

Take It Away

Ashes Remain

It's hard to breath when you know that you're not alive
It's hard to live
Hard to live when you're dead inside
It's hard to see
Hard to see when your head is down
I can't see you I can't see and you're all around

You can't bring me down
I won't surrender
You can't break me now
There's nothing here
Nothing left
You still try to take it away

You want to bleed just to know that you are alive
You start to scream
As your dream and your fear collide
You can't see what you need when your head is down
I can't see you
I can't see you and you're all around

You can't bring me down
I won't surrender
You can't break me now
There's nothing here
Nothing left
You still try to take it away

Cannot, will not, cannot, will not bring me down
Cannot, will not, cannot, will not break me now
Cannot, will not, cannot break me now

You can't bring me down
I won't surrender
You can't break me now
There's nothing here
Nothing left
You still try to take it away
