

# Get Up And Do Something

Ashford & Simpson

Chorus:

Get up and do something  
Get up and do something  
Get up and do something  
Get up and do something

I know you don't want to be no clown  
Leave it up to the rest of them  
But if the music should get way, way down  
So low you just can't take it no more

Repeat Chorus

I know you like your number cool and calm  
And what you like is all right with me  
But when the drummer hollers, give him some  
No use, you've got to turn it loose

Repeat Chorus

I'd like to ease the tension in your body  
Relax you till you let it out wholehearted  
It's nothing; it's not demanding

Repeat Chorus
